

USB Insert Template

Dynamic information area

Product names and serial numbers
or other dynamic information will be placed here.

Do not create a box, we will print on top of your artwork.

USB stick placeholder

This is where we will attach a USB drive.
Rectangular area outlines approximate location and
will not be printed unless included in the final design.

Text or other important information in this area
may be fully or partially overlapped.

**Remove all information provided in the initial template before saving
as final .JPG**

The red outer area is the bleed area. You should extend
the background artwork to the outer edge of the bleed area.
Text or other important information must not be in the bleed area.

Also remember that you will need to reserve
some space for a barcode.

Barcode area is 250x100 pixels, 21x8 mm
or 0.833x0.333 inches as shown below.

Barcode area

We will print a barcode here.
Do not create a box, we will
print on top of your artwork.

Artwork Requirements:

RGB color mode
4.733x4.733 inches 300 DPI
120.2x120.2 mm
1420x1420 pixels
